Citing the compute cluster

LUH´s compute cluster is partly funded by the DFG as Major Research Instrumentation (Forschungsgroßgerät). In fact, several parts of the compute cluster have been funded independently in the past. The most recent addition is the compute cluster partition Amo. When publishing research that has been significantly helped by using compute cluster, we would like to politely ask for a reference also containing to the DFG funding, which is not part of the funding guidelines, but also helps us with future applications that are always necessary to keep a complex tool up-to-date and running. Unfortunately, the guidelines are only available in German here 2.18 at DFG. Chapter “Veröffentlichung von Projektergebnissen” states two variants accepted by the DFG:

- In German “Gefördert durch die Deutsche Forschungsgemeinschaft (DFG) — Projektnummer(n)“
- In English “Funded by the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) – Projektnummer(n)” [1]

Projektnummer (project number) for **mpp-25**, **smp-25** and **gpu-25** is **563020064** (GZ INST 187/953-1 FUGG).

Projektnummer (project number) for **amo** compute cluster is **INST 187/742-1 FUGG**.

Projektnummer (project number) for **lena** compute cluster is **INST 187/592-1 FUGG**.

[1] it really says “Projektnummer(n)” (the German word), even for the English variant
